Te Mata Kindergarten

Taking GIANT steps in LEARNING

* Our Kindergarten is a friendly, caring environment where children are safe, secure and have fun while learning.
* We have five qualified, very experienced, registered teachers and are an established innovative team.
* Our programme is based on the early childhood curriculum, Te Whaariki.
* We celebrate "A Moving Child is a Learning Child." which promotes learning through physical play.
* Our large natural outdoor environment is well equipped and gives many opportunities for active play.
* We have an excellent relationship with local primary schools, which leads to an easy transition for your child.
* Small group size - limited to 40 children and 5 qualified teachers.
* Te Mata Kindergarten is FREE, no additional charges or fees.

Building life-long relationships in your community

For Children, for Communities, Not for profit

Our Aim is to set in place the foundation for a lifetime of learning. We offer a child initiated programme in which we teach children to teach themselves by promoting problem solving, exploring their interests and ideas, and expressing their thinking through curriculum areas.

CHILDREN, TEACHERS AND THE WIDER COMMUNITY ENGAGE IN LEARNING TOGETHER.

Additional Information

At Te Mata Kindergarten we encourage the children to be independent learners and participants. We provide experiences for children which are caring, supportive, educational, foster independence and develop the child's individual strengths and interests. The children are able to participate in a very wide range of experiences. The routines provide stability and security for the children as they enjoy their time at Kindergarten with peers and experienced Teachers.

Each child has their own in depth profile which records their learning experience at Kindergarten as well as a digital StoryPark profile. The curriculum is initiated by the children. Each child’s interests are explored and developed with the whole Kindergarten also benefiting from a wide range of curriculum topics.

Children who attend develop a comprehensive general knowledge and become active learners.

Families are an integral part of the Kindergarten and are involved in many ways contributing their own skills, knowledge and resources.

“Children, Families and the wider Community engage in Learning Together.”

Areas of Good Performance

The learning environment is stimulating and challenging for children. It is well planned and resourced. Children have access to a wide range of activities and experiences. They are encouraged by teachers to extend their play across all areas of the kindergarten.

Children have developed trusting relationships with teachers, who extend children’s thinking and allow them to take risks. As a result, children demonstrate that they enjoy their time at kindergarten and are confident and competent learners.
